

The Backbone

Go Paperless

As a Department that promotes sustainability and as we continue to build our readership, our goal is to eventually distribute the newsletter electronically only. We encourage you to subscribe to the following link and opt-in by selecting the Public Works Newsletter for the electronic version. The electronic newsletters allow the City to share more information while reducing paper production. www.beverlyhills.org/enotice

Roxbury Drive Protected Bike Lane Pilot Project

Take the Community Survey on Options for a Potentially Permanent Design

On September 14, 2021, City Council approved the one-year Roxbury Drive Protected Bike Lane Pilot Project, which includes a southbound parking-protected bike lane and northbound conventional bike lane, connecting to bikeways in both Los Angeles and Beverly Hills and improving bicycle access to Roxbury Park. Bike lanes on Roxbury Drive are identified as high priority in the City's adopted Complete Streets Plan.

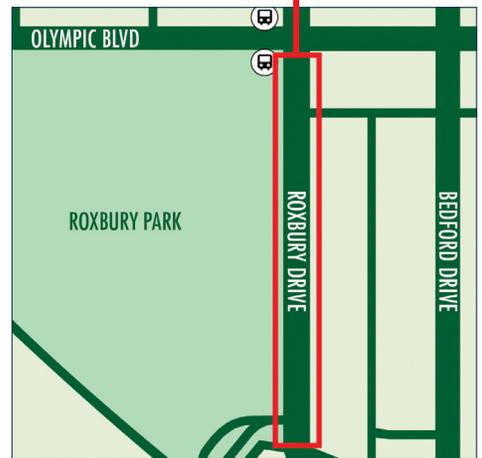

The goal of the pilot project was to provide a more comfortable street for people to bicycle on by providing physical separation from moving traffic, while not removing any on-street parking or vehicle travel lanes.

The City is currently evaluating the results of the pilot project and exploring options for potentially transitioning the bike lanes into a permanent street feature. As part of that process, the public is encouraged to take a survey regarding their experiences traveling within or adjacent to the Roxbury Drive Protected Bike Lane Pilot Project and provide their thoughts on a potentially permanent design.

The community survey is available online at www.beverlyhills.org/completestreets.

Please take the survey by September 15, 2023. The Traffic and Parking Commission will review potential options on October 5, 2023.

The Traffic and Parking Commission agenda and staff report with more information and images of the conceptual design options will be available by October 1, 2023 online at www.beverlyhills.org/TPCAgendas.

Climate Action and Adaptation Plan

The City of Beverly Hills is taking steps to adopt a Climate Action and Adaptation Plan (CAAP). The goal of the CAAP is to make Beverly Hills resilient to climate change and reduce its greenhouse gas emissions. We encourage community members to review and provide feedback on the CAAP by visiting online at www.beverlyhills.org/BHCAAP.

CLIMATE ACTION & ADAPTATION PLAN

We Watch Out for Each other Safety Campaign

"Be a Roll Model" around our schools

The September campaign theme is traffic safety around schools. The message to drivers dropping off and picking up children is: "Be a 'roll' model around our schools. Safe transportation starts with you!" Drivers should obey traffic signs and signals, comply with reduced speed limits in school zones, and stop for any families and kids crossing the street. When loading children, drivers should park legally at the curb instead of double-parking. To avoid

congestion at drop-off and pick-up times, parents could try leaving home a couple minutes earlier or biking, walking, or rolling to school.

The October campaign theme is patience. The message to all road users is: "On wheels or feet, be kind on the street!" October is City Civility Month. You never know when someone is having a bad day so be patient with your neighbors. Drivers should think before honking and drive like their kids are watching. All road users should slow down for each other.

Water Efficiency is a Way of Life

Outdoor water used for the landscape and pools is about two-thirds of the total water used at a typical home in our area. Due to changing climate conditions throughout California and the south-west, we need to change how we are using water. For more information, please call **310-285-2467** or email AskPW@beverlyhills.org.

- Water 2 days a week:
 - North of Santa Monica Blvd = Monday and Friday
 - South of Santa Monica Blvd = Tuesday and Saturday
- About 8 minutes for pop-up sprinklers and 15-20 for drip irrigation.
- No water run-off on the sidewalk or street
- No watering (sprinklers or hose) after 9 am or before 6 pm

A flyer for a "FREE Drive-Thru Event SHREDDING AND COMPOST" in Beverly Hills. The flyer features a map of the event location, which is on Civic Center Drive between 3rd Street and 4th Street. The map shows the "Shredder Truck" and "Compost Booth" locations. The event is open to all community members and will take place on Sunday, October 15th, 2023, from 9am to 1pm. The flyer also includes contact information for Public Works: (310) 285-2467 or AskPW@Beverlyhills.org.
